YUVAL MEIR

PHD | AI RESEARCHER SCIENTIST

SUMMARY

I'm a passionate and curious researcher with a strong academic background in physics, math and artificial neural networks.

My research has centered on developing advanced algorithms for artificial intelligence, deep learning, and computer vision.

I am dedicated to leveraging cutting-edge research to drive innovation and tackle complex problems.

EDUCATION

- Bar Ilan University, Physics Department** 2021 – 2024
Ph.D. in Physics and Artificial Intelligence
(Advised by Professor Ido Kanter)
 - Developed AI algorithms in Deep Learning and Computer Vision.
 - Conducted research, designed and analyzed experiments.
 - Published 11 peer-reviewed papers, including two Top-100 SciRep.
 - Mentored lab members and supervised projects.
- Bar Ilan University, Physics Department** 2019 – 2021
M.Sc. in Theoretical Physics
 - Grade: 95.3 (with honors)
 - Combined track, M.Sc. and Ph.D.
- Bar Ilan University, Physics Department** 2011 – 2014
B.Sc. in Physics

While studying in an excellence program (MOFET) in high school.

WORK EXPERIENCE

- Teaching assistant**, Bar-Ilan University 2019 – 2024
 - Information Theory and Learning Algorithms, Physics for brain science and biologists, Optics Lab.
 - High teaching score: 4.7/5
- Israel Defence Force**, Ministry of Defense 2016 – 2018

GRANTS AND AWARDS

- The Reba Dam Scholarship for Excellent PhD students** 2024
- The Rector's Prize for Excellent PhD students** 2022
- Bar-Ilan President's Scholarship for Outstanding Doctoral Fellows** 2021 – 2024
